IN THE CLAIMS:

Claim 25, line 3, --said-- has been inserted.

Claim 26, line 1, --the-- has been inserted before "step".

2. The following is an examiner's statement of reasons for allowance: a receiving method and apparatus are disclosed. The closest prior art Strolle et al US patent no. 5,894,334, discloses similar receiving method and apparatus. However, Strolle does not teach or fairly suggest "an indexer for cycling the data through the equalizer the timing recovery and the phase recovery circuits so that data related to each channel is processed by each the equalizer the timing recovery and phase recovery circuits in sequence thereby requiring one phase recovery, one timing recovery and one phase equalization for all channels within the communication band". Such limitations as recited in the base claims and in combination with the other claimed limitations, are neither anticipated nor rendered obvious by Strolle.
